Did you know?

A genuine Volvo Exchange Turbocharger fitted by a Volvo trained technician = optimum performance.

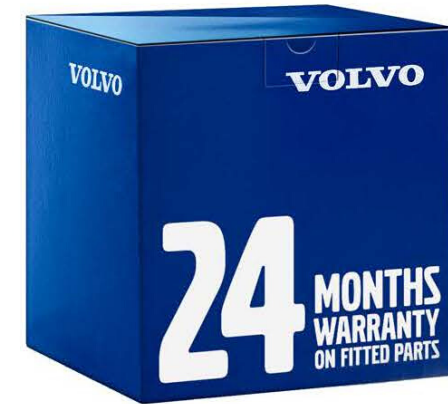

Using the wrong turbocharger can jeopardize the functionality of the truck and cause huge expenses, including consequential damages to other engine components.

By choosing a Volvo turbocharger, you are guaranteed to reach the performance requirements that Volvo has specified for use in a Volvo Truck.

- Protects the after treatment system, valves, and pistons
- Enables optimal low fuel consumption
- Ensures engine meets emission standards
- Is covered by Volvo warranty

2 YEARS WORRY-FREE

We are now offering a full 2 years/500,000 km warranty* on fitted parts, when that part is installed by an authorised Volvo workshop. It covers repair or replacement of parts and even consequential damages.

See it as a warranty on your business.

GENUINE VOLVO PARTS
